PROFILE

I am a front-end developer with expertise in React, JavaScript, Responsive website building, and HTML. With a background in Ecommerce websites and project management, I have developed a strong technical mindset, capable of gathering user requirements and translating them into development tasks. My passion for website development led me to learn coding, and I am now seeking a full-time front-end developer role.

WORK EXPERIENCE

FRONT-END DEVELOPER
Freelancer - Developer portfolio
September 2023 - Present

- Developed several web projects and landing pages as part of the SheCodes course
- Implemented responsive design techniques to ensure optimal user experience across devices
- Used React and JavaScript to build interactive and dynamic web applications

ECOMMERCE & TRADING EXECUTIVE
FitFlop
May 2021 - Present

- Managed website performance and analytics for the US and EU markets
- Uploaded and maintained FitFlop products in the CMS
- Increased website conversion rate by improving the customer search experience
- Created user stories for developers to implement new website features

ECOMMERCE & DIGITAL PROJECT MANAGER
Abbey Group
September 2018 - 2020

- Led the QA process for the company's new itinerary builder platform, collaborating with developers on project deliverables
- Trained internal teams on new features and tools
- Worked with the development team on website redesign projects and created 4 white label websites
- Monitored booking functionality using XML, addressing external clients' requests
